**NEW - NATIONAL AUTO MAINTENANCE AND LIGHT REPAIR CONTEST**

Starting this year, Michigan will compete in the National Auto Maintenance and Light Repair contest. In order to determine the 2020 Michigan contestant:

- Each Specialist contestant will be required to take an ASE style, MLR (Maintenance and Light Repair) based written test.
- After the first place winner in each of the three Auto Specialist contests has been determined, the Specialist first place winner with the highest MLR written test score will be offered the opportunity to compete at Nationals.
- In the case of a tie, the first tiebreaker will be the highest Specialist contest score. If needed, the second tiebreaker will be the second highest MLR written test score.

### CONTEST OVERVIEW FOR SPECIALIST TECHNICIAN - BRAKES

#### DESCRIPTION OF CONTEST:

This contest is designed to test the basic skill and knowledge of an entry-level technician by:

- Utilizing computer based service information
- Measuring brake system components
- Servicing drum brake assemblies
- Properly flaring and bending brake tubing
- Diagnosing and identifying ABS system components
- Proper set-up and operation of an Ammco brake lathe

#### TOOLS AND EQUIPMENT:

- Rotor and drum measuring tools
- Disc and drum service tools
- Ammco brake lathe, or equivalent
- Computer based service information
- Brake line flaring tools
- Reference material
- DVOM

#### EQUIPMENT SUPPLIED BY TECHNICAL COMMITTEE:

Contestants will not have to bring hand tools and equipment to the contest. They will have some options on the following equipment:

Brake Measuring and Flaring Tools - Rotor/Drum measuring tools will be provided in both English and Metric. ISO and Double Flaring tools will be provided or you may bring your own. **NO HYDRAULIC TYPE FLARING TOOLS ALLOWED.**

Ammco Brake Lathes (4000E) - Bench style units with drum and rotor capability will be provided

Micrometers - English and metric micrometers will be provided or you may bring your own. Calibration of all your equipment is your responsibility. **NO DIGITAL MICROMETERS PERMITTED.**

Digital Volt/Ohm Meter (DVOM) - Fluke Model #87/88 will be provided, however, due to the difficulties students exhibit when using DVOM's that they are unfamiliar with, the Technical Committee recommends that students bring their own. (It must have a minimum of 10 Meg Ohm input impedance)

**IMPORTANT: The Technical Committee has observed that many students seem to have difficulty using tools and equipment they are unfamiliar with. Therefore, students are permitted to bring their own equipment, provided it is clearly labeled with the students name and/or your school's identification. Equipment that cannot be hand carried through the contest must be dropped off well in advance of the contest briefing so it can be placed at the station for the student to use. Calibration of your equipment is your responsibility.**
