Available Contest Spots Lottery

Available high school contest spots, not filled by the approved number of regional qualifiers, are filled by a contest lottery, as determined by the State Director. The procedure by contest is as follows:

- All regions are put in a hat and regions are drawn based on the number of available spots.
- The winning region's Regional Contestant Ranking Sheet is then consulted and the next available competitor is then contacted.
- If there is no available competitor from a winning region, then the procedure starts over.

HS = High School

CPS = College/Postsecondary
